Robert Vogel, M. D.

Health Commissioner

Montgomery County Health Department

451 West Third Street

Dayton, Ohio 45402

Attn: Mr. John Binderman

Dear Mr. Vogel:

In accordance with Section 3734.08 of the Ohio Revised Code, the annual Solid Waste Survey of your Department was conducted on December 26, 1972.

vental Projection Agency

The survey consisted of a review of the office records, the individual disposal sites and facilities along with discussions regarding the program with Mr. John Binderman during the survey.

As can be readily seen from the survey results, your staff are performing excellently. The few debits on Administration were discussed and I feel that these will be taken care of immediately.

In regards to the Sanitation of the Incinerators, the only remarks I could make would be that the South Plant should make definite advances in taking care of their residue as it is a potential hazard. During these inspections I did take into consideration the difficulties the plants are experiencing with the Air Pollution equipment and the engineering studies.

In reference to the Sanitation of Landfills, I only feel that the Powell Road and Gettysburg Landfills need some more attention, which Mr. Binderman assured me they would receive.

I am suggesting to the Director of the Ohio Environmental Protection Agency that the Montgomery County Health Department's Solid Waste Program be approved.

Sincerely,

268 M. 6. O. B. 11892
